

## LORD STRATHCONA HEARS SCIENTIST

BRITISH ASSOCIATION  
OPENS ITS SESSIONS

Sir W. Whyte Speaks on De-  
velopment of Overseas  
Transportation.

(Special to the Times.)  
Winnipeg, Aug. 25.—The whole  
twelve sections of the British Associa-  
tion opened their sessions this morn-  
ing, the presidents of each delivering  
their addresses. The inaugural meet-  
ing was held last evening at the  
Walker theatre before an audience of  
two thousand people. Sir Joseph Thom-  
son, the president, said in part: "The  
association was now an Imperial one.  
The association was doing much in  
uniting the different Dominions of the  
Empire by holding its meetings in  
various parts thereof."

The address to-day which attracted  
most attention was delivered by Sir  
Wm. Whyte, president of the engineer-  
ing section. It was attended by Lord  
Strathcona, who followed the speaker  
with keen interest.

Sir William dealt with the important  
bearing engineering has had upon the  
foundation and development of the col-  
onies and dominions beyond the seas,  
with particular reference to Canada.  
He discussed at some length questions  
of economy in the cost of overseas  
transportation, and of increase in  
speed and dimensions of ships. He also  
illustrated the intimate connection be-  
tween a powerful fleet and the de-  
velopment of mercantile shipping and  
commerce.

Somewhat of a sensation was created  
in the chemical section when the pre-  
sident, Prof. Armstrong, in his address,  
attacked methods of advertising used  
by some scientists.

"I thought," he said in conclusion,  
"the reputation of scientists was liable  
to be diminished by the way they  
were seeking notoriety. I know that  
not a few who have labored steadfastly  
and seriously in the old-fashioned  
exact and painstaking way have been  
deeply hurt by the manner in which  
their efforts have failed to meet with  
encouragement, whilst those who have  
thrown caution to the winds have  
been favored."

In the educational section, Dr. Gray,  
head of Bradfield college, in his pre-  
sidential address, pointed out the ig-  
norance of many of his countrymen, even  
the best educated, in regard to Canada,  
and advocated the teaching of more  
geography in the English schools and  
subjects bearing on the history, econ-  
omy, etc., of the Empire.

In the anthropological section, Prof.  
John L. Myers, in his presidential ad-  
dress, advocated the establishment of  
an Imperial bureau of ethnology to  
study the races of the Empire. It was  
a dream he hoped would soon be ful-  
filled. What was more practical and  
reaser conception was a Canadian  
bureau, and he hinted that during the  
convention plans would be laid for  
founding one.

He took up the question of the best  
immigrants needed in the West. "What  
kind of men," he asked, "do best in  
Canada? What kind of men is Canada  
taking out of the raw material which  
Nature is feeding into God's mills on  
this side? This was the question they  
should study. They studied grains,  
cattle, land, etc., but not men."

## AUTO SPEEDWAY DECLARED UNSAFE

Was Not Completed at the Time  
Two Drivers Lost Their  
Lives.

(Times Leased Wire.)  
Indianapolis, Ind., Aug. 25.—That the  
motor speedway in this city was not  
completed and was unsafe when driv-  
ers Wm. Bourque and Harry Holcomb  
were killed on August 19th, was  
brought out in the coroner's inquest in  
the cases of the two men, details of  
which were made public. Coroner  
Blackwell signed the papers in the in-  
quest yesterday.

Carl G. Fisher, president of the speed-  
way company, according to these docu-  
ments, testified that he examined the  
cars that Bourque and Holcomb were  
driving and that two of the axle beds  
were broken.

Not satisfied that the accident to the  
car was entirely responsible for the  
smash-up, Blackwell asked: "Is it a  
fact that you did not have time to com-  
plete the track before the races?"  
"Yes, that is true," Fisher answered.  
"You were expecting an accident of  
some kind, were you not?" the coroner  
continued. "Yes sir," was the reply.  
"And for that reason had the hospi-  
tal built there?" "Yes sir,"  
Replying to further questions by the  
coroner, Fisher stated that the track  
probably never could be put into prop-  
er condition for speed contests. He  
stated that gangs of men were em-  
ployed at all times when the races  
were not on the track, to keep it in the  
best possible shape, and that there was  
at least one spot on the circuit that  
made high speed perilous.

## HON. S. FISHER DUE TO-MORROW

MINISTER OF AGRICULTURE  
ON VISIT TO VICTORIA

May Consent to Address a  
Public Meeting Before  
Leaving City.

Hon. Sydney Fisher, minister of agri-  
culture in the federal government, is  
expected to reach the city to-morrow  
afternoon on the arrival of the Char-  
lotte from Vancouver. He will remain  
in the city until Sunday, and possibly  
until Monday, the question of the du-  
ration of his stay being still open. The  
minister will be met on arrival by the  
members of the executives of the local  
Liberal associations, and a conference  
held as to the likelihood of his being  
able to address a public meeting. It is  
feared that it may be too late to ar-  
range for a meeting to-morrow even-  
ing, but if it is agreeable to Hon. Mr.  
Fisher a meeting will probably be called  
for Saturday evening, either in the  
Victoria theatre or the O. U. W. hall.

Departmental business is expected to  
engage the attention of the minister to  
a considerable extent during his stay in  
this city. He will look into the matter  
of the site for the proposed experi-  
mental farm on Vancouver Island, and  
on this question alone will interview a  
large number of people.

The minister will also pay a visit of  
inspection to the William Head quar-  
antine station, the control of all quar-  
antine stations throughout the Domini-  
on being vested in his department.  
Some needed improvements to the local  
station will be discussed during his  
visit.

After completing his visit here the  
minister will go to Seattle and visit  
the exposition. Hon. Sydney Arthur  
Fisher is one of the most popular

HON. SYDNEY FISHER,  
Minister of Agriculture.

members of the Laurier government,  
and as minister in charge of one of the  
most important departments at Ot-  
tawa, has an enviable record not only  
as a hardworking and conscientious  
minister, but as a capable administra-  
tor. He is one of the original  
famous cabinet—Sir Wilfrid Laurier  
formed on undertaking the task of  
forming a government after the  
general election of 1896.

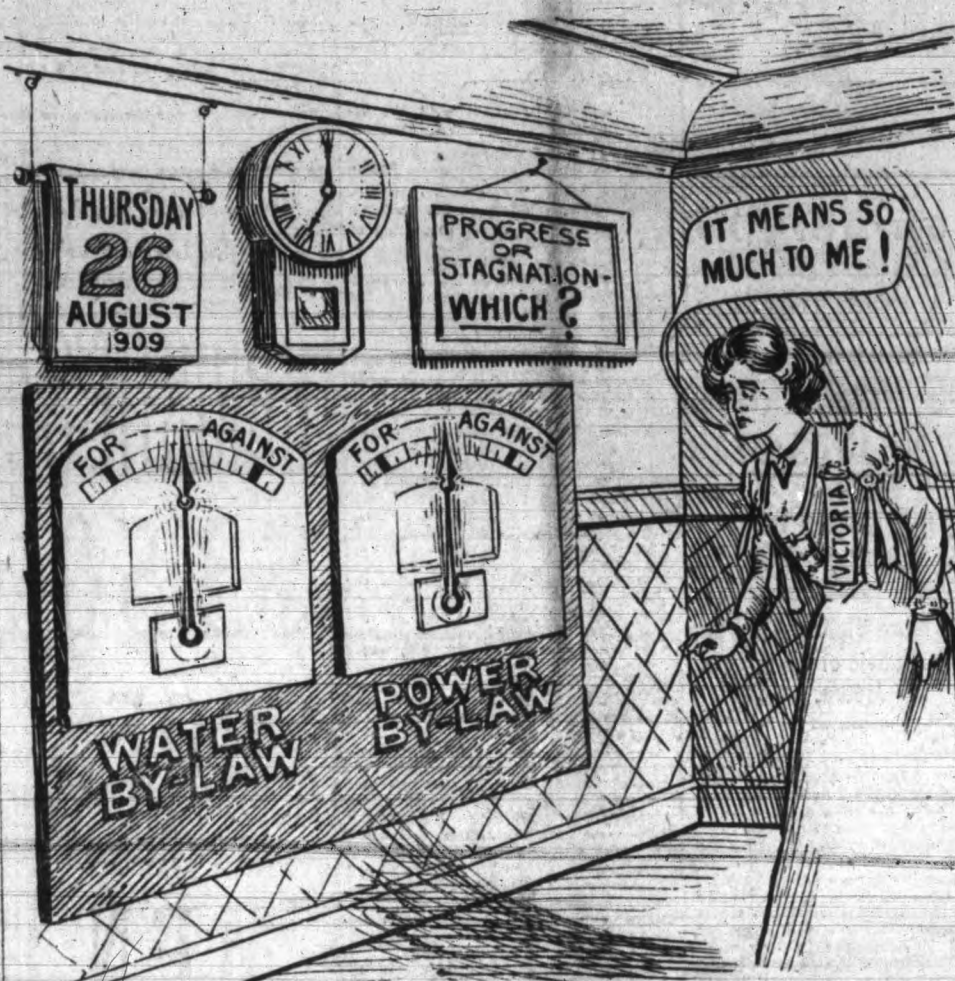

Much of the success which has at-  
tended Hon. Mr. Fisher's administra-  
tion of his department is due to the  
fact that he is a practical agricultural-  
ist. In his youth he devoted much of  
his time to the study of the scientific  
principles applicable to farming, dairying  
and stock-raising, and this knowl-  
edge has stood him in good stead in  
the administration of the department  
of agriculture.

The minister has had a most inter-  
esting political career. A native of  
Montreal, where he was born in 1850,  
he was elected to the House of Com-  
mons for Brome in 1882 and again in  
1887. He took an active part in the  
political campaign throughout Canada,  
which led to the great Liberal victory  
at the polls in 1896, and on the forma-  
tion of the Liberal ministry was of-  
fered the portfolio he has held ever  
since by Sir Wilfrid Laurier.

Hon. Mr. Fisher visited Victoria in  
1903, when he was en route to Japan  
to enquire into openings for Canadian  
trade.

## DISAPPOINTED LOVER COMMITTS SUICIDE

(Times Leased Wire.)  
Plymouth, Eng., Aug. 25.—Lord Elliot,  
who was fatally shot on Monday, com-  
mitted suicide, according to the ver-  
dict of the coroner's jury, which investi-  
gated his death yesterday.  
Lord Elliot was the heir of the Earl  
of St. Germans. It is said that the  
young man killed himself because his  
father wouldn't allow him to marry  
Miss Estelle Christie, an American show  
girl, with whom it is reported he fell  
in love when she was playing in  
London two years ago. The tragedy  
took place in the Earl's home.

A DAY OF ANXIETY

## LATHAM BREAKS SPEED RECORD

AERONAUT RACES  
PARIS EXPRESS

Monoplane Averages Over  
Forty-three Miles an  
Hour.

(Times Leased Wire.)  
Rheims, France, Aug. 25.—Flying in  
his monoplane this afternoon, Latham  
broke the distance speed record, and  
just at the time it appeared that his  
flight had also exceeded Paulhan's  
time aloft, his petrol was exhausted  
and he was compelled to alight. The  
average time was forty-three miles  
and a tenth an hour. The conditions  
for the flight were adverse. A high  
wind was blowing. During part of his  
flight Latham raced the Paris express.  
He easily distanced the train, although  
the engineer opened the throttle and  
did his best to beat the aviator in the  
monoplane.

Paulhan yesterday made a sus-  
tained flight of two hours and fifty-  
three minutes and twenty-four sec-  
onds.

Latham's record-breaking flight be-  
gan a few minutes after he had ended  
his flight of nearly forty-four miles,  
which he covered in one hour one  
minute and fifty-one and a quarter  
seconds.

Henri Fournier, who was thought to  
have been fatally injured in his spec-  
tacular fall from a great height yester-  
day when a breaking wire caused his  
machine to "buckle" and crash to the  
ground, disproved the report regarding  
his condition to-day by appearing on  
foot on the field. After walking around  
for a short time he made a short flight  
in his reserve machine.

Zeppelin's Flight to Berlin.  
Friedrichshafen, Aug. 25.—Count  
Zeppelin, in his newest dirigible bal-  
loon, Zeppelin III, will leave here at 7  
p.m. to-day with a party of friends for  
Berlin.

He expects to cover the distance, 450  
miles, by Saturday. According to pre-  
sent plans, and if the wind is favorable,  
Zeppelin expects to land at Tegel, a  
suburb of Berlin. The Emperor and  
Empress are expected to be present to  
welcome Count Zeppelin when he de-  
scends at Tegel.

## WILL VISIT WEST.

Lord Strathcona Accepts Invitation Ex-  
tended by Premier of Alberta.  
(Special to the Times.)  
Edmonton, Alta., Aug. 25.—Premier  
Rutherford has wired cordial greet-  
ings to Lord Strathcona,  
and has invited him to visit the capital,  
which the high commissioner has ac-  
cepted.

## TWO CRUSHED TO DEATH.

San Francisco, Aug. 25.—Buried un-  
der tons of brick and mortar, from a  
wall which fell on them, John Regan  
and Wm. Harrison, both laborers,  
were crushed to death at Eddy and  
Hyde streets yesterday. The wall had  
been standing since the conflagration  
and the men were working with a gang  
of laborers razing it.

## MAY CAPTURE TRADING VESSELS

RUSSIAN GUNBOATS  
ACTIVE IN BEHRING SEA

Czar Threatens to Confiscate  
Craft Caught North of Cape  
Alexander.

(Times Leased Wire.)  
Nome, Alaska, Aug. 25.—It was  
feared in Nome to-day that several  
American trading vessels recently re-  
ported along the Siberian coast will be  
captured by Russian gunboats sent to  
patrol the Behring sea coast in fur-  
therance of a new edict by the Czar,  
which threatens confiscation of all  
boats trading north of Cape Alexander.  
This order was recently issued by  
Governor Kalkikoff, and has created  
consternation among the trading craft  
plying between Nome and Siberia. The  
new orders are declared to be a retali-  
atory measure against the Nome cus-  
toms authorities for deporting Russian  
immigrants from this port, and also  
is designed as a means of prevention  
of the escape of Siberian convict ex-  
iles who might make their way to this  
coast in an endeavor to find an asy-  
lum in Alaska.

For several years many Nome ves-  
sels have been doing a lucrative busi-  
ness on the Siberian coast, trading  
with natives for whale bone, ivory and  
furs. These all made their home port  
at Nome, shipping their product to Se-  
attle.

The restriction of the Russian edict  
applies to all small traders of what-  
ever nationality, except Russian, and  
covers the most valuable territory  
hitherto sought by whalers and  
traders of the Pacific.

## REBELS BLOW UP TURKISH BARRACKS

Two Hundred and Forty Sol-  
diers Killed in Southwest-  
ern Arabia.

(Times Leased Wire.)  
Vienna, Aug. 25.—Two hundred and  
forty soldiers were killed, according to  
messages received to-day from Con-  
stantinople, by Mahdist rebels in Ye-  
men, a province of southwestern  
Arabia, who dynamited the Turkish  
barracks.

The location of the barracks is not  
stated in the dispatches. Turkish  
troops for some time have been scat-  
tered throughout Yemen, but it has  
been reported that owing to their not  
receiving any pay, they have refused  
to fight the rebels.

## UNION PACIFIC SHARES DECLINE

WEAKNESS DUE TO  
HARRIMAN'S ILLNESS

Report That Railway Magnate  
Will Undergo an Op-  
eration.

(Times Leased Wire.)  
New York, Aug. 25.—Wild scenes  
were enacted at the stock market this  
morning caused by alarming reports  
that the true condition of E. H. Har-  
riman's health has not been made pub-  
lic.

Throughout the street it is rumored  
that his illness is of a cancerous na-  
ture and that a grave operation on the  
wizard is imminent.

Heavy early losses of Harriman  
stocks caused a general weakness in  
the market. Yesterday Union Pacific  
closed weak at 95 1/2, and before the  
close of the market to-day was sold as  
low as 98. At Arden no information re-  
garding Harriman's condition has been  
given out.

A rumor is current here to-day that  
an operation is about to be performed  
on Harriman. The visit yesterday of  
Dr. Norman Dittman, the noted New  
York specialist on kidney diseases, to  
Arden is lending color to the report. Al-  
though it is declared that Harriman is  
doing "some work" rumor has it that  
this work consists of turning over the  
details of his vast interests to his as-  
sistants.

Walter Harriman, the wizard's eldest  
son is to-day en route to his father's  
bedside from the west where he has  
been surveying.

Walter's return to the east is be-  
lieved to have been caused by his  
father's serious illness.

The personal and business friends of  
Harriman emphatically deny the rumor  
that he is suffering from cancer. They  
contend that Harriman, within a few  
weeks, will be in his accustomed health  
and will give battle to James J. Hill if  
the Minnesota man is looking for it as  
has been reported.

## DROWNED IN ALASKA.

Seward, Alaska, Aug. 25.—The body  
of Paul Lane, of San Francisco, son of  
C. D. Lane, who, with a companion  
named Sayre, was drowned in the  
Sustina river, has been found by a  
party of prospectors. The remains were  
buried to-day near the spot where they  
were recovered.

## COMMITTS SUICIDE.

St. John, N. B., Aug. 25.—Hugh Mc-  
Laughlin, aged 35 years, jumped into  
the lake at Coldbrook yesterday, and  
was drowned. He has been acting  
strangely of late.

## BUSY SCENE AT CITY HALL

VOTING IN PROGRESS  
ON TWO BY-LAWS

At 1 o'clock 700 Ballots Had  
Been Cast—Weather  
Conditions Ideal.

Scenes resembling somewhat those  
attendant upon a municipal election  
contest are being enacted at the city  
hall to-day where voting is in pro-  
gress upon the two most important by-  
laws ever submitted for the judgment  
of the ratepayers of Victoria—the  
agreement between the corporation and  
the B. C. Electric Railway Company,  
and the measure giving the city power  
to expropriate the holdings of the Es-  
quimalt Waterworks Company at Gold-  
stream.

There are this year nearly 5,000 re-  
gistered property owners who are en-  
titled to vote on this occasion, but ap-  
parently but a comparatively small per-  
centage of them are going to exercise  
their privilege to-day, for at 1 o'clock  
only some 700 votes had been polled. It  
was anticipated, however, that the  
afternoon's vote would be very heavy,  
and that the bulk of the workings  
of the city would cast their ballots  
after 6 o'clock.

Weather conditions are favorable for  
getting a large number of the ratepay-  
ers to the polls. In the early morning  
it looked as though the day would be  
a wet one, but at 6 o'clock the sun  
came out brilliantly and the day is  
therefore an ideal one for such an  
event.

At the polling booth, which is sit-  
uated in the old fire hall, with entrance  
from Pandora street, Wm. W. North-  
cott, the returning officer, had made  
every arrangement for the speedy re-  
cording of the vote, and everything  
ran smoothly in consequence. The  
vote on each by-law was taken in sepa-  
rate polling booths and there were  
separate ballots.

The headquarters of the citizens'  
committee were in Geiger's plumbing  
shop, on the corner of Douglas and  
Pandora streets, and here many of the  
leading citizens were to be found ac-  
tively engaged in the work of getting  
out those known to be favorable to the  
by-laws to the polling booths.

At the time of going to press it is  
impossible to forecast the fate of the  
two important measures. Those who  
are keeping a check on the voters as  
they visit the city hall say that there  
is no doubt that the electric by-law  
will pass by a good majority, but they  
are not so sure about the water by-  
law.

Ex-Mayor Morley and a number of  
his friends were prominent figures at  
the entrance to the polling booth most  
of the day, and there were many heated  
and amusing arguments with the  
bystanders in consequence, as to the  
merits of the two measures being voted  
on.

The citizens' committee have at  
their command a number of auto-  
mobiles and hacks for the conveyance  
of ratepayers to the polls, and these  
are being made good use of.

Returning Officer Northcott has a  
large staff of assistants, and it is his  
opinion that the result of the voting  
will be made known about half-past  
eight o'clock. The polls close at 7 p.m.  
The Times will bulletin the progress of  
the count.

## WASHINGTON TOWN

PARTLY DESTROYED  
Flames Wipe Out Business  
Section of Krupp—Loss  
\$400,000.

(Times Leased Wire.)  
Wilson Creek, Wash., Aug. 25.—Mer-  
chants of Krupp, seven miles east of  
here, are to-day erecting tents to be  
used as temporary places of business  
until permanent structures can be built  
to take the places of those burned in  
yesterday's conflagration, which de-  
stroyed the greater part of the town.  
The loss is to-day placed at \$400,000,  
partly covered by insurance.

Handicapped by not having fire-  
fighting apparatus of any kind, the  
flames, which originated in an empty  
warehouse, spread rapidly to the busi-  
ness section and almost every business  
house in the town was wiped out. An  
appeal was made to Wilson Creek and  
a chemical engine and forty men were  
sent to Krupp. The brigade was a wel-  
come relief as the people were worn  
out by their efforts to stay the pro-  
gress of the fire.

## BOYCOTT AGAINST BRITISH TRADESMEN

(Times Leased Wire.)  
Peking, Aug. 25.—Instructions were  
sent to-day to the viceroy of Nanking  
province and the governor of Kiangsu  
to adopt measures to end the boycott  
of the Chinese along the Yangtze river  
against British tradesmen, following a  
protest from the British legation.  
The boycott was begun after Police  
Inspector Meera was acquitted of kill-  
ing a Chinese. The Orientals argue  
that his acquittal was a miscarriage of  
justice and are actively agitating a  
boycott against the British commercial  
interests as a result. The boycott is  
spreading throughout the valley.

## NUCLEUS OF CANADA'S NAVY

TWO CRUISERS WILL BE  
LOANED BY BRITAIN

One to Be Stationed on the Pa-  
cific Coast and One on  
Atlantic.

(Special to the Times.)  
London, Aug. 25.—The Canadian As-  
sociated Press learns on the highest  
authority that the vessels to be loaned  
to the Canadian government will be  
two third-class cruisers, one for the  
Pacific and the other for the Atlantic.  
These ships will require refitting and  
alterations, which will be done on this  
side at the expense of the Canadian  
government. Officers of these ships  
will also be loaned to Canada and paid  
by Canada.

When Canada starts to build war-  
ships, which the Canadian Associated  
Press learns will be the "Bristol" type  
of cruiser, they will be built in Canada.  
A representative of a leading firm of  
shipbuilders will shortly proceed to  
Canada to select a site for a shipyard.  
Regarding the site for a shipyard on  
the Pacific, a prominent naval expert,  
asked his opinion by a Canadian official,  
replied that Vancouver was more  
suitable than Esquimalt, though it  
might also be necessary to have a dock  
at the latter place. The Canadian As-  
sociated Press also learns that the  
idea of having submarines in the St.  
Lawrence and on the Pacific coast has  
been suggested and the suggestion re-  
ceived with some favor.

## EDITOR KILLED.

Assaulted by Panama General Who is  
Now Under Arrest.

Panama, Aug. 25.—William Nicholas  
Chandler, editor of the Panama Press,  
is dead here to-day as the result of a  
beating alleged to have been adminis-  
tered to him by General Herman O.  
Jeffries, who figured prominently in  
the Panama revolution.

Carrying a copy of the Press contain-  
ing an article which General Jeffries  
believed reflected on the honor of Mrs.  
Claude E. Guyant, his sister-in-law, he  
visited the newspaper office shortly  
after noon yesterday, and is alleged to  
have struck Chandler on the head with  
the butt of his revolver. This blow is  
said to have dazed Chandler, and Jef-  
fries is said to have rained blow after  
blow on the editor's head until he sank  
to the floor dead.

Mrs. Guyant is the wife of the United  
States deputy consul general, with  
whom she is alleged to have eloped in  
June, and is a sister-in-law of Jeffries.  
Jeffries is under arrest.

## FIFTEEN MEN KILLED IN MEXICAN MINE

Rescuing Parties Trying to  
Save Lives of Thirty Im-  
prisoned Miners.

(Times Leased Wire.)  
Mexico City, Aug. 25.—Rescue parties  
to-day are making efforts to release 50  
miners who are imprisoned 1,500 feet  
below the surface in the La Paz mine  
at Matechaula.

According to to-day's advices 15 men  
were instantly killed at the bottom of  
the shaft yesterday when the cable to  
the cage broke and it descended upon  
the miners at the bottom of the mine,  
crushing them into an unrecognizable  
mass.

When the cable broke thirty men  
were in the cage, and they were  
dashed 1,500 feet on the heads of the  
men below. While it is certain that  
some of the men who were in the cage  
were killed, the rescuers are working  
in the hope that some of them may  
have escaped death.

The cage is pinned in by tons of  
wreckage, and it is believed that the  
imprisoned men can be reached before  
night.

That some of the men are still alive  
is attested by the fact that the groans  
of the injured can be heard by the  
rescuers.

## FIRE DESTROYS HOTEL.

Guests Compelled to Flee From Burning  
Building in Night Clothes.

Boise, Idaho, Aug. 25.—Forty guests of  
the Ellis hotel at Placerville, in the Boise  
basin, escaped death in a fire which early  
to-day destroyed the building. The pa-  
trons of the hotel fled to the streets in  
their night clothes, and none had time  
to save their belongings. The hotel is a  
total loss.

## ACCIDENT TO MORGAN'S YACHT.

Vessel Strikes Ledge and Arrives at  
New York Leaking.

New York, Aug. 25.—It became  
known to-day that J. P. Morgan, the  
financier, was nearly shipwrecked on a  
ledge in Long Island sound, while re-  
turning from Newport to the city on  
Tuesday on his steam yacht Corsair.  
The accident happened near City Isl-  
and. The Corsair was making fast time  
when she struck a submerged ledge.  
Reversing her propellers, the yacht  
quickly backed off, but began to leak.  
The machinery was not badly dam-  
aged, however, and the Corsair pro-  
ceeded to New York under reduced  
speed, with her pumps going to keep  
her free from water.

### ATTORNEY FOUND DEAD.

York, Pa., Aug. 26.—District Attorney Wm. I. Ammon, of this city, who was found dead in the left of the stable in the rear of his home yesterday, is believed to have committed suicide.

For fifteen years prior to the fall of 1908, Ammon was secretary of the Standard Building Association of this city. He had custody of the associa-

tion's funds, and yesterday an expert accountant who recently went over Ammon's accounts, said:

"The funds of the association had been systematically misapplied by Ammon. The extent of the embezzlement cannot be approximated, but as the work proceeds the amount grows larger. After interviews with Mr. Ammon he offered no explanation and admitted the shortage."

## NINE THOUSAND SPANIARDS DEAD

### DISEASE RAMPANT IN ARMY IN MOROCCO

Claims More Victims Than the Bullets of the Moors.

(Times Leased Wire.)

London, Aug. 26.—According to private advices reaching here to-day from Melilla, there has been a large loss of life among the Spanish troops from disease, and it is estimated that out of the army of 38,000 men which General Marina had in his command barely three-fourths of them are now alive. Since the recent reverses the troops have hugged the fortifications. The garrison buildings are in an unsanitary condition and disease has exacted a toll greater than the number who have fallen from the bullets of the Moors.

It is estimated that the number of dead is close to 9,000 men.

### KING OF GREECE ANXIOUS TO ABDICATE

Rumor That He Has Informed Powers of Desire to Give up Throne.

(Times Leased Wire.)

Constantinople, Aug. 26.—A rumor is current in official circles here to-day that King George of Greece has notified Great Britain, France, Germany and Italy, that he wishes to abdicate the throne. Although the rumor is unconfirmed, it is generally believed here it is on account of the unrest in Greece resulting from Turkey's insistence on continuing the Cretan autonomy.

### FRENCH BARQUE GAEL

ABANDONED AT SEA

Was Bound From London to Portland—Part of Crew Reported Safe.

(Times Leased Wire.)

San Francisco, Cal., Aug. 26.—Bound from London to Portland, Ore., the French barque Gael was abandoned at sea and part of the crew has arrived at San Francisco, Western Australia, according to a cablegram received to-day by the Merchants' Exchange. No cause for the abandonment was mentioned in the dispatch.

When the barque sailed from London it was under the command of Capt. Savary, and the crew was composed of 25 men. The vessel is an old-time barque of 1,500 tons. She was owned by the Theistic Maritime Company, of France, and her home port was Nantes. The Gael's cargo consisted of cement consigned to the Balfour-Guthrie Company at Portland.

### TWO AERONAUTS MEET WITH MISHAPS

Rheims, France, Aug. 26.—Bleriot was slightly injured this afternoon when his aeroplane got beyond his control and crashed to earth. Luckily he was but a short distance from the ground when the accident occurred, and though the machine was wrecked he escaped injury.

In the coupe internationale d'aviation, which is set for Saturday, Bleriot will use his reserve machine which was constructed to insure his continuance in the contests in the event of an accident such as to-day's occurring.

Rougier, flying in a Voisin bi-plane, was another one of the unlucky ones to-day. His machine collided with a corner of the grandstand. Both man and bi-plane struck the earth together. The fall was short and Rougier hurt his leg, but not seriously. The machine was injured.

Professor M. Bernardo Attilio, royal inspector of Italian immigration, with headquarters at New York, is in the city a guest at the Empress hotel. Prof. Attilio came west in company with G. Bethune Gray, of the C.P.R. land department, and his visit to British Columbia is made for the purpose of looking into the province as a field for Italian immigrants.

## ISLAND LANDS TO BE SETTLED

C. P. R. OFFICIAL IS HERE ON MISSION

G. Bethune Gray Will Give Attention to Settling E. & N. Area.

On a mission fraught with the utmost importance to Vancouver Island, G. Bethune Gray, British and European manager of the Canadian Pacific Railway Company's land department, is in the city a guest at the Empress hotel. As a result of his inspection of the lands under the control of the company on this island it is anticipated that there will shortly flow a stream of desirable British immigrants to this portion of the province, and the problem of land clearing will have been made easy of solution.

In an interview with the Times this afternoon Mr. Gray, who has charge of all the lands of the company in Canada, said that his office in London was repeatedly in receipt of enquiries regarding the possibilities of securing desirable land for settlement in British Columbia, and particularly on Vancouver Island, and these inquiries had become so insistent that he determined to come and make an investigation.

As a consequence of the inspection trip which is now being undertaken on this island, Mr. Gray hopes to be able to arrange to send an almost unlimited number of British settlers here to locate. These men are mainly of the class who have some means, and willing to undergo the hardships attendant upon commencing life in a new country providing the land which was offered them was reasonable in price and in an attractive locality.

By inducing such men to come here Mr. Gray was of the opinion that the problem of land clearing on Vancouver Island would be in a fair way of being solved. The labor problem had up to the present been a stumbling block preventing the C.P.R. from earlier opening up the land for settlement, but in a conference which he had had with Mr. R. Marpole, general executive assistant of the C.P.R., they had agreed upon a large plan for the bringing here of settlers in large numbers.

The company some months ago had, in order to feel their way in the matter so to speak, sent a number of settlers to Cowichan district, and the reports they had received from them were of the most encouraging character, and they have now no doubt that the scheme which they have outlined will prove successful.

The plan roughly is that the land will be offered the British settler on such terms as will induce him to put up with a little initial hardship in the work of clearing it, and as only men with a small amount of capital sufficient to be able to erect homes and afterwards to engage in small farming will be asked to investigate the opportunities here, and as there are an unlimited number of such men in England, the company experiences no difficulty whatever in making the scheme a success.

Mr. Gray, who reached the city on Wednesday, this morning toured the Spanish main in an automobile, and was much impressed with the fine agricultural land which he found in that district. This afternoon he left for points up the line of the E. & N. railway, and will before concluding his visit of inspection to Vancouver Island go to the north end, so as to get a comprehensive idea of the whole country.

### DEATH ROBS SHERIFF OF HIS PRISONER

Watchman Alleged to Be Implicated in Raid Dies Suddenly.

(Times Leased Wire.)

Bellingham, Wash., Aug. 26.—A short time before Marshal Byron Kingsley, of Blaine, arrived at his home to place him under arrest for participating in the raids on the fish traps near the international boundary line last week, John Elder dropped dead of heart failure. Elder was one of the watchmen on the traps that were robbed of forty thousand sockeye salmon and was one of those who told the dramatic story of how pirates in motor boats, towing big scoops, came to the fish traps in the dark of the night and took away the fish. Recent developments tend to rob the story of some of its romance, and there is a faint suspicion in the minds of the authorities that the watchmen on the traps were really ones who engineered the big steal and then gave out the story of the coming of the strangers in the dark in order to divert suspicion from themselves.

Kingsley left Blaine yesterday morning bearing two warrants, one for the arrest of John Elder and the other for a youth just about 19 years of age. He, too, was a watchman on one of the traps. Moon was caught by the marshal without any adventure, and willingly submitted to arrest and is being brought to this city.

## JAPANESE TO DECORATE BUILDINGS AT FAIR

Exposition Grounds Will Resemble Bit of Tokio on Japan Day.

Seattle, Wash., Aug. 26.—To decorate the entire Alaska-Yukon-Pacific exposition, instead of a single building or street, is the ambitious plan of the Japanese committees in charge of Japan day, September 4th, at the fair. Eight thousand dollars has been raised for this task, and the fair grounds will be made to resemble a bit of Tokio, with lanterns, dragons and streamers on all sides. Miniature arches in Japanese designs will be erected on the grounds. Puget plaza and the court of honor will be especially decorated and the Japanese building will, of course, be the centre of attraction for the day. Jugglers, geishas, musicians and fencers will give entertainments all day and the fair will resemble a holiday in a Japanese city. An honorary committee has been appointed to co-operate with the Japanese.

The public spirit of the state of Utah was demonstrated at the exposition yesterday, when the Utah building at the fair was dedicated. Present at the ceremony were 300 High school cadets from Salt Lake City, Governor Wm. Spry and his staff, and several hundred Utah citizens, members of the Salt Lake chamber of commerce, including Col. D. C. Jackling, the copper king of Utah, who donated half of the \$15,000 fund which made it possible for the big delegation from Utah to visit the fair.

## AN INJUSTICE TO VICTORIA.

The province of British Columbia is rapidly increasing in population. The increase in school population corresponds with the general growth of population. In no part of the province is the tendency more marked than in the city of Victoria and on Vancouver Island. The number of pupils seeking admission to the High School of this city is one of the marked features of the beginning of the autumn term. The situation thus created has forced upon the city trustees the necessity for the construction of a new High School building. That is a situation which must be considered without loss of time. It is purely a municipal problem, and the civic authorities must face it and overcome it.

But there is another side to the story, a side to which the Times has frequently called attention. We refer, of course, to the necessity of the institution of a Normal School in the city of Victoria. We have always held that the capital of British Columbia, like the capital of every other province of the Dominion, should be the educational centre of the province. To no other province of the Dominion does this proposition apply so strongly and conclusively as to the province of British Columbia. In no other city of the Dominion are the conditions so overwhelmingly favorable to the selection of the capital as the permanent educational centre. Unfortunately, the political circumstances in British Columbia have been permitted to overcome the physical and general circumstances and the Normal School is located elsewhere. But we have neither desire nor reason to be unfair in this matter, and it is but just to admit that there may have been a colorable excuse for the action of the government in departing from all precedent and locating the first provincial training school for teachers in the most populous city of the province.

Our purpose now is to call the attention of the McBride government to the urgent necessity for the establishment of a Normal School upon Vancouver Island, and of course in the city of Victoria, which is at once the capital of the province and the educational centre of the island. The arguments which were used in favor of the location of the first Normal School at Vancouver apply with equal force to the situation in the city of Victoria to-day. If it would have been unjust to young women and men residing on the mainland desiring to qualify for the teaching profession, and also a hardship to their parents, to force them to take their pedagogic training in Victoria, it is quite as unjust to compel the hundreds of students whose homes are in Victoria and on the island to stand the expense of a year's attendance at the Normal School in Vancouver, where the cost of living is high and is steadily increasing.

We ask the Premier, who is the representative of Victoria in a special sense, to consider these facts and let the public know whether he thinks the demands of his constituents are reasonable or unreasonable and what he purposes doing about the establishment of a Normal School here. A promise to lay the matter before the government and to give it personally his most serious consideration will not be satisfactory.

With the advent of polling day on the by-laws a great corps of correspondents have laid down their able pens and rested from their labors. And there is this to be said for the writers who honored the Times with their communications, that for the most part they were thoroughly sincere in their convictions and presented the case as it appeared to them with considerable ability. Whatever the verdict of the ratepayers, we trust it will redound to the lasting benefit of Victoria.

## CAT TRIES TO HATCH EGGS

Shelbyville, Ind., Aug. 26.—A rooster, owned by Mrs. John Leech, drove a sitting hen from her nest and tried the job himself. A cat ousted the rooster and is now taking the hen's place on the eggs.

The substitution of the rooster for the hen, and cat for rooster, will probably not affect the eggs.

Substitution, however, is dangerous where our health is concerned. There can be no excuse for a dealer offering something which is said to be "just as good" when "Fruit-a-tives" are asked for.

"Fruit-a-tives" have proved their great value in all cases of Indigestion and Dyspepsia, Constipation and Biliousness, and in troubles arising from disorders of the Liver, Bowels, Kidneys and skin.

They are the only remedy made of ripe fruit juices, and they tone up Liver and Kidneys, and regulate the Bowels, even more effectively than fruit itself. Thousands swear by them. "Fruit-a-tives" are sold at 50c a box, 6 for \$2.50, or in trial size, 50c. At dealers, or from Fruit-a-tives Limited, Ottawa, Ont.

## PROVINCIAL POLITICAL RUMBLINGS.

There are signs many of an intention on the part of the government to dissolve the provincial legislature and precipitate a general election some time during the present year. The most significant indication of the intentions of the Premier is a very feeble attempt on the part of the government organs to revive the Oriental bogeyman. We are told the Grand Trunk Pacific Railway Company is petitioning or importuning the Dominion government to permit the importation of Mongolian laborers under bond to work on the Pacific division of the line. That is not a new story. It is as old as the second Canadian transcontinental railway. It has been doing duty for the McBride government ever since the day when the present Attorney-General was sworn in as a member of that administration. Indeed we believe it antedates the advent of that distinguished legal light and unimpeachable administrator. Its history goes back to the time when Mr. Bowser acted as legal adviser of the Japanese contractor, M. Gotoh, and undertook on behalf of his client to have delivered within the confines of the province a considerable number of Japanese laborers for the Canadian Pacific Railway Company and the Wellington Colliery Company. It has also direct connection with the passage through the legislature of a certain measure fathered by the Attorney-General which purported to exclude Orientals from the province, but which actually declared to be legal the immigration of the classes of persons it professed to exclude. These facts would naturally incline the mind of a real opponent of Asiatic immigration to be sceptical as to the sincerity of any member of the McBride government who professed to be concerned for the protection of white labor. Consequently when an organ of that government says there is a movement on foot to have Mongolians imported under bond to work on the Grand Trunk Pacific Railway, the natural conclusion is that there is no such scheme brewing, but that a provincial general election is impending and that the McBride government is in search of a cry which will strengthen its position in the province. This conclusion will be all the more natural when the fact is kept in mind that under its contract with the Dominion government the Grand Trunk Pacific Railway Company, or the contractors under that company, have not employed and cannot employ Oriental labor; that under existing conditions the employment of Orientals would prove an economic impossibility even if Asiatics were available; and that a short time ago a fair wage officer of the Dominion government went over all sections of the western divisions of the Grand Trunk Pacific Railway to investigate the conditions under which labor was being employed on the road.

Still it is eminently gratifying to have a semi-official assurance that the McBride government is going to constitute itself a strong bulwark between the white workmen of British Columbia and the Oriental menace. Such an assurance may indicate that the Attorney-General has severed his professional relations with M. Gotoh. But it may also be an indication that such a connection is no longer profitable because owing to the agreement between the Canadian government and the government of Japan immigration from the latter country of the laboring classes has entirely ceased.

The Asquith government is going in for root and branch reforms in many directions. It will not be content with providing old age pensions, insurance against unemployment and shifting the incidence of taxation to the shoulders best constituted for bearing the burden. A bill has been introduced into the House of Commons by Mr. Herbert Gladstone, the Home Secretary, to shorten the hours of shop assistants. The principal features of the measure, which will not become law this session, but will be pressed after it has been considered for a year, are as follows:

"Shop assistants are not to be employed more than sixty hours a week, nor after 8 p.m. on more than three evenings in the week."

"There must be a weekly half-day, every shop to close not later than 2 p.m. on one day in the week."

Local authorities (in London, the county council) will have the power to select early closing day.

"Shops, with the exception of public houses, will be closed on Sunday."

"In Jewish localities shops will be allowed to remain open till 2 p.m. on Sunday if they have been closed from sunset on Friday till sunset on Saturday."

"Street markets, where important and customary, may be exempt."

"Hawkers and cheapjacks will be restricted on the same lines as shopkeepers."

"Special provisions will be made in respect of holiday resorts and public holidays."

"The bill will not apply to rural parishes with a population of less than one thousand."

A remark passed by Mr. Justice Martin when hearing an application in Chambers yesterday is reported to have caused considerable speculation in legal circles. Why there should have been any such speculation is not easy to understand, inasmuch as "legal circles" are presumably well aware that His Lordship has been assigned to hold court in Vancouver, will probably be out of the city for the greater part of next month; could not possibly state when he would be in a position to take up the matter again, and therefore did not depart very widely from precedent in suggesting that the application should be taken before another judge. But of course "legal circles" are at the present time in a lively state of anticipation in regard to possible appointments to the Bench of the Court of Appeal and may be expected to twist the most ordinary occurrences into matters of the deepest significance.

The race track problem with its attendant evils is now engaging the attention of public men and public journals in the East. Yet they have had no sixty-day meets there. The consensus of opinion seems to be that the question must be dealt with and with as little delay as possible. The duty of enforcing the law, of course, falls upon the provinces. But if the law is not clear enough in its distinction between legitimate sport and a game which is nothing but gambling of the most demoralizing kind, then the law must be amended.

The Times is in receipt of a belated communication from Mr. John Dean on the subject of a future water supply. The publication of the letter would merely be a waste of time and space. All ratepayers will either have voted or made up their minds how they are going to vote before the Times appears in the homes of its readers this evening.

Toronto Star: If it is true that no editor, publisher, manager, or printer is now, or has been, an inmate of either the Kingston Penitentiary or the Central Prison, the newspapers should not too hastily conclude that it is a credit to journalism. It may be regarded by some as a reproach to the administration of justice.

## What Other People Think

## AN ADMONITION AND CORRECTION.

To the Editor:—With all due regard to that excellent paper, the Post, I can't help but say that I think its staff very poorly posted on leading topics of the day. My attention was drawn last evening to a paragraph accusing the Times of making errors in headlines. It was an insipid little comment and would have slipped my memory but for the fact that on the very next page was an account of the Bedford's armament, etc. According to that worthy paper, the Bedford is a third-class cruiser, and Esquimaux has been holding its sides in glee ever since, because it is a well known fact that the said ship is a decided improvement on the Monmouth, one of the County class which came to Esquimaux some time ago. In fact, the Bedford was built long after the Monmouth, and is a first-class cruiser. That is the second time I have seen the same error. Of course I am aware there is a great deal of force in headlines, but given the choice, I would rather have a rather bungled headline so long as it was not absolutely misleading, than a glaring mistake in a column of news.

NEPTUNE.  
Esquimaux, Aug. 25th, 1909.

## THE GOVERNOR'S MEDALS.

To the Editor: The department has made no explanation in answer to my letter which appeared in your issue of Friday, August 13th about those bronze medals. It cannot deny that its superintendent made the explanation at Revelstoke that those medals were given to pupils that sent up the most pupils at the entrance examinations and that there was no favoritism. Since that is so, why does it not explain why the medal was given at Cumberland to a daughter of the ex-conservative member there who is also a partner of the present Conservative member, in preference to the pupil at Mission City, who got 331 marks and headed the whole province on the rural set of questions? Each place passed up the same number of pupils.

Also why the medal at Chilliwack was given to Miss Thomas, whose father has a vote, in preference to Miss Woodworth, whose father has no vote? Each pupil got the same number of marks. How was the tie decided?

Also why the medal was given in the Spallumcheen municipality to the pupil who took the most marks at midsummer although a pupil there took far more marks at Christmas? Also an explanation of the other questions asked in that letter. In the words of Earl Grey himself, if our sports are not conducted in a fair manner we may be quite sure there is something "rotten" in the character of Canada.

## EMINENT ENGINEER REACHES VICTORIA

## Wyn Meredith to Superintend Construction of Jordan River Power Plant.

Wyn Meredith, an electrical engineer of high repute, who supervised the construction of the Coquitlam dam and the big power plant at Lake Buntzen, has arrived in the city, having been engaged by the B. C. Electric Railway & Lighting Company to construct their contemplated works at Jordan river.

Mr. Meredith is here in anticipation that the by-law will pass to-day and that there will be no obstacle to the immediate commencement of the work. A. T. Goward, local manager of the B. C. Electric Railway company, spoke very highly of the ability of Mr. Meredith, and in this connection mentioned that he had just finished a visit of inspection to Goldstream and had come back convinced that it was an ideal source for a water supply for the city of Victoria. Mr. Meredith had seen Elk and some other places, and was of the opinion that those two places could not compare for a minute with Goldstream.

Mr. Goward mentioned that this opinion was all the more important and significant in view of the fact that the eminent engineer could have no prejudice whatever in the matter of Victoria's future water supply.

Mr. Meredith will take entire charge of the immense undertaking at Jordan river, where great power facilities will be secured by the B. C. Electric Company, and the result of the voting to-day will determine whether or no an immediate start shall be made on that huge enterprise.

## JAPANESE LADY WAS NOT WELCOMED

## Immigration Officials Found That Her Papers Were Fraudulently Obtained.

A Japanese lady who arrived on the Empress of India, travelling first class a week or two ago, was last night sent back to Japan, it having been found that she was not a desirable citizen, and also that she had come in on false naturalization papers. She claimed to be a British subject, but the papers were issued in her name while she was residing in Japan.

When the lady in question arrived she was closely questioned by the immigration authorities, who in a very short time found that she was not telling the truth. This lead was followed up, and it was soon found that her papers were false. Finally she confessed everything. There were at least two good reasons for sending her back to Japan. One was the fact that her papers were fraudulently obtained, and another that since she left Canada she had married a Japanese citizen, and by doing so had lost her Canadian citizenship. If she ever obtained it, any Canadian marrying a person of another nationality by that act takes the nationality of the person she marries.

Other passengers leaving this port on the Empress were ten Chinese, who are going home for a visit; Mr. Batelli, the man who is touring the world on foot without funds in the interests of the International Geographical Society of Berlin; H. L. Epping, from San Francisco, the proprietor of the Grand Hotel at Tokyo and a Smith and wife, who have also been in the Orient before.

## STEAM SCHOONER GROUNDS ON ROCK

## Crew Throws Deck Load Overboard in Effort to Float Vessel.

(Times Leased Wire.)

Aberdeen, Wash., Aug. 25.—Preparations are being made this morning to tow the steam schooner Fair Oaks, which went aground yesterday on a reef of the bar, to Puget Sound to be placed in drydock. The gunboat Yorktown and several tugs stood by the disabled vessel all night, but owing to the gale that prevailed it was found impossible to bring her in.

A wireless report received here early this morning says that the Fair Oaks is in danger of going to pieces, as the waves are breaking over the vessel. The crew remains on board and they were busily engaged in throwing overboard a large portion of the deck load in an effort to keep the ship afloat. She had a cargo of 55,000 feet of lumber. The Fair Oaks registers 700 tons.

At the close of the school of instruction in swimming, the pupils presented Ian St. Clair with a barometer. The instrument is the best that could be purchased in the city, and forms both a useful and valuable token of regard. The barometer was manufactured by Comitti & Sons, London, Eng., and was tested and adjusted at the Royal Observatory, Greenwich.

In reply to the many congratulations showered upon Mr. Simpson on the wonderful performance that secured for him the proud title of the champion swimmer of B. C., the gallant young athlete made a point of giving credit to Ian St. Clair, who taught him to swim while he attended South Park school.

## BUREAU RECEIVES MANY INQUIRIES

Cache Creek District Attracting Much Attention From Land Seekers.

A great many inquiries have recently come to the bureau of information of the provincial government in regard to the lands in the neighborhood of Cache creek. A large quantity of land has been bought from the provincial government in the neighborhood recently, and it is supposed that some of these must have been doing some advertising, for a large number of the inquiries have come in within a few days.

A great many reports have come to hand by the steamers trading at the way ports up the east coast of the island in regard to settlers going into the Shuswap valley which is adjacent to the Cache creek. There is a good deal of good land in the valleys in that neighborhood, and although a good deal of it is covered by timber licenses and some has been sold, there is still land open for purchase or pre-emption. Very little is known of it, however, except from the reports of cruisers and others who have been in there.

Many other inquiries are coming in every day so that Frank I. Clark, who is in charge of the bureau, is kept busy all the time answering the letters and securing information.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Aug. 25—3 a. m.—The pressure is low throughout the Canadian Northwest provinces; a disturbance that developed yesterday on the Washington coast caused heavy rainfall in British Columbia and Western Washington and Oregon. East of the Rockies rain fell at Edmonton, but the weather in nearly all districts is fair with normal temperatures.

Forecast: For 24 hours ending 5 p. m. Friday. Victoria and vicinity—Moderate to fresh southerly and westerly winds, partly cloudy with showers.

Lower Mainland—Light to moderate winds, stronger on Straits, chiefly cloudy with rain.

Reports: Victoria—Barometer, 29.95; temperature, 54; minimum, 34; wind, 10 miles S. W.; rain, .40; weather, cloudy.

New Westminster—Barometer, 29.94; temperature, 52; minimum, 32; wind, 4 miles S. W.; rain, 1.52; weather, cloudy.

Kamloops—Barometer, 29.58; temperature, 61; minimum, 38; wind, 10 miles S.; weather, part cloudy.

Barkerville—Barometer, 29.64; temperature, 38; minimum, 28; wind, 6 miles S. W.; rain, .14; weather, cloudy.

San Francisco—Barometer, 29.92; temperature, 52; minimum, 52; wind, 3 miles W.; weather, clear.

Edmonton—Barometer, 29.52; temperature, 54; minimum, 50; wind, calm; rain, .05; weather, cloudy.

Winnipeg—Barometer, 29.04; temperature, 54; minimum, 49; wind, 5 miles S.; weather, clear.

## VISIT OF FIFTH TO SEATTLE FAIR

REGIMENT GOES TO THE SOUND METROPOLIS

Canadian Soldiers to Participate in Military Parade on Exposition Grounds.

The Fifth Regiment will parade tomorrow night preparatory for a visit to Seattle on Labor Day. The regiment will leave here on Sunday afternoon, September 26th, and will camp at the exposition grounds at Seattle during their stay. The men to the number of approximately 250 will wear full dress uniform. The band will accompany the regiment and it is likely that special low rates will be granted for the trip. The parade to-morrow night will be held for kit inspection and all kit and equipment in possession of the men must be turned in. On leaving the drill hall the men will take home their tunics and side arms in readiness for the trip to Seattle.

As a matter of form the permission of the Washington government must be obtained before the soldiers may plant foot on United States soil. This has been wired for and will of course be forthcoming.

The men of the Fifth will take their blankets with them, and will arrange for their own sleeping accommodation at the exposition grounds. This explanation is considered necessary in view of the fact that a number of the men have been in doubt as to these arrangements.

Major Curdie and his brother officers of the regiment are looking forward to a very pleasant visit to the Sound metropolis. Arriving there on Sunday night they will stay until the following evening. Monday is Seattle Day at the exposition as well as being Labor Day, and a great military parade will be held in the grounds of the exposition. There will be contingents of the National Guards, the regulars and from the naval vessels at Bremerton, besides the Fifth Regiment of Victoria, and as a military display the spectacle should prove a most impressive and attractive one.

## FISHING IS GOOD AT SOOKE LAKE

Cohoos Are in Straits—Deer Plentiful in Sooke Lake District.

Fishing is engaging the attention of a good many sportsmen at present. Cohoos are being taken regularly in the straits, but no very large catches are recorded so far. Just two or three to the boat is the usual take.

At Sooke Lake the fishing is said to be splendid. Forty and fifty each of the pretty little lake trout has been the record of those who have been in to the resort within the last few weeks. This week-end several well known anglers are talking of trying their luck, and on Labor Day there will be quite an influx.

Deer are said to be very plentiful in the Sooke district. People driving in over the road often see them and they are quite tame, allowing the bugles to approach easily within gunshot. They seem to know that they are under the protection of the law at this time of year.

## THISTLES BLOOMING WITH IMPUNITY

No Steps Taken by City to Enforce Regulations.

Complaints have been received that the thistles are not being cut on the vacant lots in and around the city to the great annoyance of those in the neighborhood who try to keep their gardens in good shape. It was announced a short time ago that the law in this respect would be strictly enforced, but apparently no steps have been taken for it is a common sight to see the dainty white blooms floating over the gardens. On many vacant lots, even near the centre of the city, the Scotch flowers have been blooming in all their glory.

One particular bunch of flowers that has aroused the ire of neighbors is situated on the corner of Niagara and South Turner streets. It is rather late to cut them now, for, unless they are burned at once, the seeds will ripen even if they are cut.

—Don't trust to the other fellow. Vote for the B. C. Electric agreement and see that he does the same.

Lifebuoy Soap is delightfully refreshing for Bath or Toilet in hot weather. For washing undecolored it is unequalled. Cleanses and purifies.

—The trolley ride to be given last evening by the Ladies' Aid of First Congregational church has been postponed until next Tuesday.

—The regular weekly meeting of the members of the Columbia lodge, I. O. G. T., was held last evening in the lodge rooms when a considerable amount of business was transacted.

—Messrs. Dinsdale & Malcolm, the contractors for the brick and stone work, have broken ground for the new public school building to be erected on Moss street. It is anticipated, as the structure is a large one, that the job will not be completed for about six months. The entire cost of the building, which will be of Claburn pressed brick and three stories in height, will be about \$40,000.

## ANNUAL EXCURSION TO SALT SPRING

Y.M.C.A. Has Chartered City of Nanaimo for the Trip.

The annual excursion of the Y. M. C. A. will be held on Labor Day, September 26th, and promises to be one of the best yet held. After negotiations with the C. P. R. the steamer "City of Nanaimo" has been chartered by the association and will take the excursionists to Ganges Harbor. This place was chosen over a number of others on account of it having excellent grounds on which to run the foot races and to play the games which will be arranged for. The steamer will leave the Belleville Street dock at 9 o'clock on the morning of the excursion, arriving at Ganges at 1 o'clock. The return will commence at between 5 o'clock and 6. Meals will be served on board the steamer by the ladies' auxiliary. Ice cream, candies, soft drinks, etc., will also be for sale.

A committee has been chosen to outline a programme of sports for the day. A baseball game will be played between the Y. M. C. A. junior team and the North Ward juniors. A football game will also be played between a picked team from the Y. M. C. A. and the Salt Spring Islanders. The races will be open to all.

In former years this excursion proved a big success, having been attended by a large number of persons. It is expected that this year's outing will be ahead of all former ones in both the way of attendance and enjoyment. An orchestra will be engaged to furnish the music on the boat which is certain to prove a good addition to the programme.

## OLD RESIDENT OF PROVINCE DIED TO-DAY

Angus Galbraith Passed Away at His Residence, Belleville Street.

The death occurred this morning at the family residence 56 Belleville street, of Angus Galbraith, a well-known resident of this city. Deceased was born in Colonsay, Scotland, and was 82 years of age. He was the last remaining member of a family of 12. At an early age he emigrated to Canada, settling first near Toronto. Shortly after that he was attracted to the new section of Ontario then thrown open, Bruce county. He took up land and for a number of years followed farming. The gold excitement in B. C. attracted him with many others, and he left his home in the east and made this province his home. After following that occupation in the Kootenays he was one of the early invaders of the Klondike when gold was discovered there. He was successful there, and for a number of years engaged in enterprises in the north.

For the past twelve years he has lived quietly in Victoria. Mrs. Galbraith survives him, and his son Finlay, living in Dawson, and a daughter, Miss Sarah, who resides at home.

The deceased was a member of the First Baptist church in this city, and a life long Liberal in politics. The funeral will be held on Saturday from the home on Belleville street.

### TRYING TO BRING WORLD FAMED RUNNERS

Shrubb and Marsh Will Likely Meet in this City.

A race between two of the world's greatest runners, Alfred Shrubb, the wonderful little Englishman, and John D. Marsh, the holder of the world's professional Marathon record, will in all probability be run off in the course of a few weeks. Manager Wattlelet, of the Royal Athletic park, who is promoting this race, has wired to both Marsh and Shrubb and if the present plans are accomplished the race will be held.

Mr. Wattlelet has received a reply from Marsh that he is willing to come and the promoter is now only waiting a reply from Shrubb. The latter asks a \$1,000 guarantee to race but this is considered rather high as the public of Victoria cannot be depended on to turn out in large enough numbers to defray the expenses. However, Manager Wattlelet has wired him the terms which he will give and is now only awaiting a reply. If Shrubb agrees to them the greatest race ever seen in Victoria at the fifteen miles distance will be run.

In reference to Marsh's performance it may be said that success has attended him in all of his performances in the past few months, and he has won every race that he has taken part in throughout Eastern Canada and the Pacific coast. Only recently he has won two full distance Marathons, besides several fifteen mile races, and he has even done as much as defeat three men in a fifteen mile relay on more than one occasion. Marsh also defeated Shrubb at Winnipeg some time ago, when the latter sprained his ankle and had to drop out.

Little need to be said about Shrubb as his name is known everywhere. He is to run Marsh a fifteen mile race on Labor Day at Recreation Park, Vancouver, and this is creating considerable excitement in the Terminal City. Although Shrubb is suffering from a strained leg he says he never felt better in all his life and will on Labor Day run a great race and give those attending something for their money. After this race he is coming to Victoria for a visit whether he runs or not. He will then return east where he has two more races to run with Longboat. Shrubb says he is confident of winning both in fast time.

### COMPLETE LIST OF FALL FAIR JUDGES

Experts in Their Several Lines Have Now Been Chosen.

The following judges have been secured by the live stock commissioner, R. W. Hobson, for the Victoria fall fair and other exhibitions throughout the province: Bryce Wright, of De Winton, Alberta; Andrew Elliott, of Galt, Ont.; J. H. Grisdale, of the Central Experimental farm, Ottawa; Joe Gray, of Newcastle, Ont.; Miss Laura Rose, of Ottawa, will judge the dairy products, and Miss Livingston, of New York, will place the domestic science exhibits.

Some of the above judges are sent out by the Dominion government, while others are secured direct by the province. They are men and women who know their business and those who are intending to exhibit will be quite sure that they will receive fair treatment at their hands.

### GREAT EBOR HANDICAP.

London, Aug. 26—Dibs, 9 to 2, won the Great Ebor Handicap at York yesterday. Royal Realm was second, and Lagos third. Also ran were: Duffy, Bonny, Shuleto, Don Juan, Morland Lad, Altitude, Peter Stone, Toy Shop and Passing By.

### NEW TROTTER RECORD.

Cleveland, Ohio, Aug. 26—Hamburg Belle established a new world's record for trotters yesterday by defeating Uhl in the first heat of a match race for the world's championship. The famous trotter made the one mile in 2:01 1/5. The time by quarters was 31, 1:01, 1:31, 2:01 1/5. Hamburg Belle led all the way. Hamburg captured the race from Uhl by winning the second heat. The time made by quarters in the second heat was 30 1/2, 59 1/2, 1:30, 2:01 1/5.

### DOCTORS ELECT OFFICERS.

Sessions of Canadian Medical Association Brought to Close.

Winnipeg, Aug. 26—The papers presented before the Canadian Medical Association were completed this morning, and the general meeting closed the session yesterday. Officers for the ensuing year were elected as follows: President, Adam H. Wright, Toronto; general secretary, Geo. Elliott, re-elected; treasurer, H. B. Small, Ottawa; financial and publishing committee, J. P. Fotheringham, J. F. Tunstall, Murray MacLaren, F. N. G. Starr and Jas. Bell.

Next year's meeting will be held in Toronto.

Dr. A. P. Proctor, of Vancouver, took up the disease of beri-beri, giving its history, geographical distribution, types found at Vancouver, with history of two of the cases, pathology, its dangers and treatment.

The convention has been a marked success throughout, not only in the numbers in attendance, but the character and general excellence of the matters taken up. The educational value will be great, and will assist materially in the dissemination of information which is of material interest to the general public.

### CANADIAN RIFLE LEAGUE

Officers Elected at the Annual Meeting—\$68 in Prizes.

Ottawa, Aug. 26—The annual meeting and presentation of prizes of the Canadian Rifle League took place at the D. R. A. competition Tuesday night, with a large attendance. In his address the president, Lieut. Col. Bate, regretted that the Canada had to shoot for the Lord Roberts' trophy after 6 o'clock in the evening, when it was getting dark, but it would not occur again, as Col. Hughes had promised better arrangements. The year was a very successful one for the league. The entries had been greater than last year, and the sub-target gun series inaugurated this year had been a great success. The prizes were beautiful, and go to all parts of Canada.

The officers elected for the year are: President, Lieut. Col. Bate, Ottawa; first vice president, Major M. H. Davidson, Quebec; second vice president, Major G. W. Hays, of London; third vice president, Major Jas. McBride, St. John, N. B.; secretary-treasurer, Frank Beard, Ottawa; auditor, Graham Bell, Ottawa. The large executive from each province was re-elected with few exceptions. Major Hewitt, of Moosemin, Sask.; Lieut. Wayne, of Prince Albert, Sask.; and O. H. Gordon, of Regina, Sask., were added.

During the year the association had spent \$58 in prizes. In 1908 only \$24 was spent. The report of the secretary-treasurer, Frank Beard, showed the receipts of the year had been from the Dominion government, \$350, and entry fees, \$1,195. The total receipts for the year were \$1,545.

A vote for the Tramway agreement is a vote for linking the fruit and agricultural lands adjacent to Victoria with the city.

### ANNUITY SCHEME PRAISED.

High Court of Ancient Order of Foresters Meet.

Sarnia, Ont., Aug. 26—At the biennial session of the High Court Ancient Order of Foresters, a resolution was carried levying an extra tax on all members. This money is to be used in an extended campaign covering all of Canada. The executive council and officers' reports showed a great increase in membership and funds. The Dominion incorporation of the society, which makes it no longer an assessment order, was referred to as the wisest step ever taken by the order. The Dominion government plan of annuities came in for warm praise. The funds in hand are now over \$80 for every thousand of insurance. Winnipeg is trying hard to get the session of 1911.

### FALLS 250 FEET.

New York, Aug. 26—With a hod full of bricks on his shoulder, James Hogan stopped for breath yesterday almost at the top of the ladder, shifted his weight for an instant's ease, and went whirling backwards over the rim of the New York Central power house chimney to his death, 250 feet below.

## SYNOPSIS OF CANADIAN NORTH- WEST LAND REGULATIONS.

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section (160 acres, more or less) of available Dominion land in Manitoba, Saskatchewan, or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district, and by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

**DUTIES.**—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 160 acres, or on a homestead occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$2.00 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$3.00 per acre. Purchased homesteads may be acquired on any available lands on either odd or even numbered sections south of Township 45, east of the Calgary and Edmonton Railway and the west line of Range 28, and west of the third Meridian and the South Railway line. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$500.

**WEST MINING REGULATIONS.**  
**COAL.**—Coal mining rights may be leased for twenty-one years at an annual rental of \$100 an acre. Not more than 5,000 acres can be leased to one applicant. Royalty, five cents per ton.  
**QUARTZ.**—A person eighteen years of age and over having made a discovery may locate a claim 150 feet by 150 feet. Fee \$5.00. At least \$100 must be expended on the claim each year, or paid to the Mining Recorder. When \$500 has been expended or paid and other requirements complied with the claim may be purchased at \$1.00 an acre.

**PLACER MINING CLAIMS** generally, 100 feet square. Entry fee, \$5.00. Discovery of gold or silver in any of five miles each of a river may be located to one applicant for a term of 10 years. Rental, \$10 a mile per annum. Royalty, 10 per cent. after the output exceeds \$10,000.

Countess Grey will reach Victoria this evening about 5:30, coming from Vancouver by the yacht Dolaura. The yacht was sent to the Terminal City by her owner, the Hon. James Dunsinville, in order to convey her Excellency here.

There will be no ostentation in connection with her arrival. Her Excellency will proceed direct from the yacht to Government House where she will remain during her stay here the guest of the Lieutenant-Governor and Mrs. Dunsinville.

On Sunday or Monday D. G. S. Quadra is expected with his Excellency Earl Grey on board.

## TRIAL OF SCHIVELY DRAWING TO CLOSE

Fate of State Insurance Commissioner Will Be Decided To-day.

(Times Leased Wire.)

Olympia, Aug. 26.—The fate of John H. Schively, state insurance commissioner, who is on trial before the Senate, charged with irregularities in the administration of the affairs of his office, will be decided late this afternoon. G. C. Israel, attorney for Schively, resumed his argument this morning, and the Senate, acting as a court of impeachment, will vote on the guilt or innocence of the insurance commissioner.

The main charge on which the impeachment trial against Schively was based was the alleged collection by that official of exorbitant fees from insurance companies for examination of their books.

## JAPAN'S TAXATION.

Adachi Kinnosuke, writing in the World's Work, says that in 1907, largely as a result of the war with Russia, Japan found itself under an enormous financial burden. Japan, he says, is more careful than many nations to place the burden on those of her sons who are able to bear it with greatest ease. Hence her ingeniously graded system of income taxation. Prior to 1903 the people whose income amounted to or exceeded \$500 per annum paid 5 per cent. of it to the government.

It was raised to about sixty-eight per cent. through a special taxation law at the time of the war. Let us pause long enough to explain (lest this might pass the understanding of our good Occidental friends to whom private property speaks sometimes more eloquently than the claims of state) that people in Japan with \$50,000 a year or more are asked to hand over to the government \$4,000 of it. Wonderful, is it not? More wonderful still—they say nothing about it.

Of course, it is graded down so that a man of a yearly income of \$500 pays about seventeen per cent. From this it may be easy to see the reason why we manufacture very few millionaires. On an average, the people of Japan pay about thirty per cent. of their net income in taxation in one form or another—a taxation which would create a revolution in Europe or America within twenty-four hours. And it is under such financial strain that the under the Russian war Japan has increased her army about three times and her navy, if efficiency, if not in number of ships, more than three times.

## TWELVE MEN DEAD.

Lost Lives When Runaway Train Collided With Switch Engine.

Bakersfield, Cal., Aug. 26.—An official report issued by the county coroner to-day stated that twelve men were killed in the collision between a runaway Santa Fe freight train and a Southern Pacific switch engine near Mojave yesterday.

The list of dead, according to the coroner's report, is as follows: L. W. Harris, fireman; R. R. Roth, Santa Fe brakeman; W. B. Mulloy, Santa Fe brakeman, all of Bakersfield. Tom Drew, Nevada miner; F. Jones, a tramp; W. F. Magee, engineer of the Santa Fe train; M. Sheldon, engineer of the Southern Pacific switch engine. Five unidentified men, supposed to be tramps.

Magee died to-day in the Santa Fe hospital at Los Angeles.

# Sold for \$950

**T**HIS announcement is for the benefit of those who are still making inquiries, personally and by phone, regarding the advertisement which we inserted in the Times on Tuesday evening of this week—that of a new 5-roomed cottage on lot 50 x 107 for \$950. Within half an hour of the appearance of the Times on the street that evening two Government street business men were in our office for particulars. They scented an investment. Phone calls came in up to 7 o'clock. We took no one to view the property before 9 o'clock Wednesday morning. By 10 o'clock it was sold for cash. During the day we could have disposed of it to at least four different inquirers—possibly more than four, as we were busy all day answering inquiries.

Now for a bit of history about this cottage. It was listed with us first at \$1,700. No sale results. We made a cash offer for it which was accepted—an offer that enabled us to sell at \$950. It was a snap and a splendid investment, too. The original owner was offered a straight year's lease of the property at \$14 a month. The purchaser at \$950 can easily get that much if he wants to rent. That means an annual rent roll of \$168. Taxes may reduce this to \$150. That means over 15 per cent. on his money.

We will call this "Offer No. 1." Below is "Offer No. 2." Whoever is fortunate enough to snap this up will have done a good day's work. Here it is:

## STEAMER CHARMER MAY BE LENGTHENED

If She is Continued in the Service New Boilers Will Be Required.

The time is approaching when something will have to be done in connection with the steamer Charmer. The steamer is still in good condition and it will be years before she will be relegated to the boneyard, but the C. P. R. never does the final wearing out of any ship. Their policy is either to sell or renew them before they become decrepit. The Charmer is now approaching that stage in her career when she will either have to be made over or sold.

Seen in regard to the vessel yesterday Captain Troup said that nothing had yet been decided in connection with the steamer. The matter of putting new boilers into her and of adding to her present length had been mooted, and the matter was under consideration, but up to the present nothing had been decided upon.

The Charmer has had a varied career and has done good service to the company. She is at present on the mid-night run from this city to Vancouver and carries most of the freight.

## NO OFFER MADE FOR STEAMER AMUR

Captain Troup Denies That Company Has Any Idea of Buying in Australia.

There was a rumor around water front yesterday that the steamer "Amur" was likely to be sold. Someone, asked her owner who was said to represent a South American shipping firm.

Capt. Troup, interviewed on the matter, said that the vessel would be sold if anyone came along with a sufficient tempting offer, but so far this had not happened. There was no one trying to buy her so far as he knew.

Further questioned in regard to the company getting a steamer from Australia, Capt. Troup said that it was all imagination. The company had never thought of such a thing.

## GAYHEAD AT FRISCO.

Steam Whaler Took 1,650 Barrels of Oil From 25 Whales.

The steam whaler Gayhead, Capt. Wing, arrived at San Francisco yesterday after a voyage of fifteen days from Kodiak, with 1,650 barrels of oil, the product of twenty-five whales, captured off the Japanese coast, and the largest cargo of its kind this season. Three boats were destroyed on July 27th, when the Gayhead ran into a school of whales.

At one time the best strawberries in Covent Garden came from Camberwell, within three miles of the Bank of England.

Mrs. Reginald Heyward, Oak Bay avenue, will not receive to-morrow.

Mrs. Henry Ross, 489 Kingston street, is removing to 1145 Belcher street.

Mr. and Mrs. Hastie intend leaving in a few days on a trip to Seattle.

Mrs. James Mackay, Menzies street, has returned from a holiday at Duncan.

Mrs. Cairne, of the Angel hotel, is leaving this week on a trip to the A. Y. P. exposition.

Mrs. Shaw, who has been staying with Mrs. Captain Kirkendall, Oswego street, is removing to 141 Croft street.

Mr. and Mrs. Frank Everts and Master Frank Everts, left last night en route for St. Louis, travelling C. P. R.

J. S. Clark left to-day en route for New York, whence he will sail by the Virginian for Europe. He is travelling via C. P. R.

Mr. and Mrs. John Brown, Cherrybank, are visiting the A. Y. P., and on their return trip will spend some time in Vancouver.

Mr. and Mrs. Peter Shandley, Oswego street, have removed to their handsome new home on Burdette avenue, near Cook.

Miss Hamilton, of Pender Island, and Miss Le Messieur, of Vancouver, who have been the guests of Mrs. Lewis Hall, have returned to their respective homes.

Mr. and Mrs. F. W. Jones left on Tuesday afternoon en route for Europe, whither they are going for the purpose of giving their daughters the benefit of a continental education.

Mrs. William Ross, Johnson street, left on Monday for a ten days' visit to friends in Bellingham and Ferndale. While in Bellingham she will be the guest of Mrs. James Morrison.

Colonel and Mrs. Worsnop of Vancouver, who have been on an extended motoring tour through Vancouver Island, returned to the terminal city last night.

The Young People's Society of St. Andrew's Presbyterian church are arranging for their annual banquet on the evening of September 13th, at which the regular work of the society will be taken up for the winter.

The many friends of Miss Cordelia Grylls will be glad to know that she is en route for Victoria and expects to arrive here about September 7th. Miss Grylls crossed from England by the S. S. Laurentic, and is now in Ottawa.

Captain and Mrs. Gould, who have been spending the summer at Esquimalt, have returned to their home on Simcoe street. Mr. and Mrs. E. B. C. Maddock, who occupied their cottage during their absence, have returned to Winnipeg.

The Rev. Father Kennedy, who spent the winter months in Victoria for the benefit of his health, has returned to his parish in Sarnia, very much improved. Rev. Father Latimer, who has been holidaying abroad, is expected to return to Victoria this month.

A most enjoyable evening was spent at the residence of Mr. J. H. Baker, 1417 Fernwood road, last night, at a card party given by Miss M. G. Baker. At the conclusion of card playing, a very dainty supper was served, bringing to a close a very pleasant evening.

Signor Gherardi, primo tenor of the Boston Grand Opera Company, who has been living quietly here for some time, will leave shortly for England to take the role of principal tenor in an eighteen-weeks' revival of "Midsummer Night's Dream," which is to be produced at Manchester.

Among the week's hostesses was Mrs. Phipps, Carberry Gardens, who gave a very smart tea on Tuesday afternoon. Her pretty rooms were regaled with the season's blossoms, and a most enjoyable time was spent. Many of the guests had been out of town during the holidays, and their meeting again was in the nature of a reunion. Among those present were: Mrs. Fitz-Gibbon, Miss Macdonald, Miss Sheets, Miss Aline Mackay, Miss Irving, Miss Hannington, the Misses Angus, Mrs. Jamieson, Miss Sampson, Mrs. H. Deaven, Mrs. Rocke Robertson, Mrs. Hannington, Mrs. Roberts, Miss Durrand, Mrs. Stuart Robertson, Mrs. J. R. Raymer, Mrs. J. A. Nick and Mrs. Bolton, of Toronto.

Dr. and Mrs. Stirling, Terrace avenue, entertained yesterday in honor of the Bishop of Chichester and Mrs. Ridgway. Quantities of pink and white sweet peas were used with good effect, throughout the different rooms, and the Fifth Regiment band was in attendance. Among those invited to meet the distinguished guests were: Mrs. Dunsmuir, the Misses Dunsmuir.

## Students' Eyes

Even optically perfect eyes do not welcome long continued near vision.

For the owner of defective eyes, the enormous amount of force required to see clearly leaves little left for the process of ideation and thought and such pupils depend for learning largely on the faculty of hearing.

Don't think the backward scholar is always stupid or lazy and don't expect him to know the fault is in his vision for he may see just as clearly as another.

Our optician gives truly dependable service and there is no charge except for work ordered.

## MAKING PREPARATIONS TO RECEIVE VISITORS

Meeting Being Held This Afternoon—Ladies Co-operating in Work.

This afternoon a meeting of the general reception committee who have in hand the entertainment of the members of the western excursion of the British Association is being held. It is probable that a sub-committee will be appointed to arrange for the housing of the visitors, this being found necessary owing to the fact that the hotels are all full most of the time.

Some months ago the members of the Natural History Society commenced the work of preparing for the time when the visitors should arrive. A circular was sent out in their name, giving information in regard to excursions to the Yukon, Alaska and other points. Since that one of the members, Moses Cotsworth, who has charge of the civil service revision for the provincial government, has had charge of the preparation of a souvenir booklet, setting out in a wholly new way the resources of British Columbia. This is being sent to every member of the association, whether they visit this province or not.

A large citizens committee was appointed to act with the members of the society and a large number of ladies have been asked to co-operate. Professor Macoun, who has been up the west coast of the island doing field work, and who is at present at the biological station will be here to help receive the visitors, and anyone interested who has not been personally invited, is asked to co-operate.

## NEW GRAND THEATRE.

The clever performers at the New Grand theatre continue to draw large and appreciative crowds. The setting of the great novelty company from Australia, The Four Stagpoles, is a vivid portrayal of rustic beauty, and the antics of the Crazy Caddie never fail to provoke roars of laughter from the audience.

The Curran and Edwards twentieth century minstrels are undeniably funny, and to keep one's eyes on the dancing sticks and twirling hats as they are manipulated by the clever movements of Wm. Selbini, requires quite an effort, as they move with lightning rapidity.

## THAMES NAVAL REVIEW.

Gale & Polden, the old service publishers, have issued a very attractive programme of the great naval review in the Thames. It contains the story of the British navy from the Armada to date, and is copiously illustrated in color. It forms a most unique souvenir of the visit to Southend, and can be obtained for 6d. (Gale & Polden, London.)

## PRETTY WEDDING AT ESQUIMALT CHURCH

Miss Lillian Osborne and Mr. George Kelly Married.

A pretty wedding took place in the R. C. church, Esquimalt, at 6.30 last evening, when Miss Lillian Osborne, daughter of Mrs. Annie Osborne, Burnside road, became the bride of Mr. Joseph George Kelly, Victoria West. The Rev. Father Flisser performed the ceremony, and the bride's mother gave her away.

The bride was most becomingly attired in a white multi-wedding gown trimmed with lace and insertion. She wore a bridal veil and orange blossoms and carried a bouquet of bride's roses and white carnations. Miss Lepansky, who attended her, wore a very dainty bridesmaid's dress of pale blue silk collared with cream, and carried a bouquet of white asters and pale pink carnations, while a wreath of forget-me-nots in her hair gave a very effective finishing touch to her toilette. Mr. C. Brenen, of Victoria, supported the groom.

After the ceremony a reception was held in room 3 of the A. O. U. W. hall, at which a large number of friends were present. A dainty wedding breakfast was served from tables decorated with sweet peas and asters, and a most sociable and enjoyable evening spent.

Mr. and Mrs. Kelly left on this morning's boat for Seattle and other Sound cities. On their return from their honeymoon they will take up their residence on Burnside road.

The bride travelled in a tailored suit of checked cloth with white plumed hat.

A large number of handsome presents were received by the young couple, testifying to the popularity in which they are held.

The groom's gift to his bride was a pretty gold brooch; to the bridesmaid he also gave a gold brooch, and to the best man a scarf pin.

Among the presents were the following: Bride's mother and brothers, dinner set; bride's sister, Battenberg spread and shams; groom's parents, bedroom suite; Miss Lepansky, silver and cut glass marmalade jar; Mr. Brenen, 14-day mantle clock; Mr. and Mrs. Newsom, Battenberg table centre; Mr. F. Homan, cut glass berry bowl; Mr. and Mrs. Good, maple centre table; Mr. and Mrs. Deagon, silver tea pot; Mrs. and Miss Murrant, breakfast cruise; Miss Rivers and Mr. Auger, hand-painted table set; Mr. J. Levy, pickle jar; Mr. and Mrs. Ed. Johnson, Japanese tea set; employees B. C. pottery, cheque; A. Friend, carving set; Shore and Anderson, silver butter dish; Miss Keefe and Miss Ramsdale, cut glass pickle jar; Miss Beaumont, sugar and cream jug; Mr. J. Simpson, lemonade set; Sadie Hogan, half dozen cups and saucers; Mr. J. Sloan, pair handsome vases; Mrs. Beaumont, tray cloth, butter knife and sugar spoon; Mr. W. Bull, Japanese tea set; Mr. A. Stein, berry set; Mr. Frank Blaud, hand embroidered sofa cushion; Miss McLaren and Mr. Emery, tea set; Mr. and Mrs. H. Simpson, silver butter dish; Miss L. ### IN WOODS FOR A MONTH.

Port Arthur, Aug. 26.—Lost in the woods for thirty days and found all dead by Indians at Dull River, north of Nipigon, Herbert Reeves, aged 30, a former United States soldier, who served in Cuba and the Philippines, was brought here by Fire Ranger Douglas. His mind is somewhat unbalanced, and he cannot tell how he lived, though he had been missing from a river drivers' camp for a month.

Grand Forks City Council Makes Grant For Advertising District.

Grand Forks, Aug. 25.—The resources of the City of Grand Forks and the fertile Kettle river valley, are at last to be made known. At a recent meeting of the city council an appropriation was made for this purpose, which coupled with the subscriptions of the business men of the city, will be handed over to George R. Belton, editor of the Gazette, who will undertake the work. Foldiers and pamphlets containing condensed information of value to persons coming to British Columbia will be issued, as well as a book of views both of the city and district, showing the actual conditions which exist here. The work will be under the supervision of the local board of trade.

## GULF ISLANDS' SERVICE.

(Special Correspondence.)

Ganges, Aug. 25.—The inauguration of a steamship service between Salt Spring Island and Vancouver by the Sechart Steamship Company of the Terminal City, is the principal subject of discussion here. The prevailing opinion among the business men is that it will be very beneficial to all of the Gulf Islands.

The boat Sulu, which it is understood will be placed on the run, will call at Salt Spring port twice a week, with possible daily calls later on. It will be placed on the run immediately upon arrival at Vancouver.

The steamer Tartar is expected here to-day, thereby making the first trip on the new service.

## MGR. DONTENWILL

VISITS ROYAL CITY

Presented With an Address on His Return From Rome.

New Westminster, Aug. 25.—Archbishop DONTENWILL, superior general of the Oblate Fathers, received a hearty civic welcome last evening on his return from Rome, where two of the highest honors of the Catholic church were in succession conferred on him. The affection in which he is held not only by his old parishioners of St. Peter's parish, but by the general public, was shown at the reception in St. Patrick's hall. The expressions of congratulation on His Grace's promotion were mingled with regret at his approaching departure.

Mayor Keary, who occupied the chair, congratulated His Grace on the exalted position he had attained through his ability. The Oblates of the order of St. Mary Immaculate, a true missionary society, with which His Grace had become associated in early life had done great things and shown much self-sacrifice in the up-building of British Columbia. Having briefly touched on the conditions in the Catholic church in B. C., when Father DONTENWILL came out to teach in St. Louis college, to the time when he became coadjutor to Bishop Duran, his worship hoped they would see the Archbishop again before long.

J. J. Cambridge then read the address of welcome.

Mrs. DONTENWILL, in his reply, thanked the audience for the cordial welcome, and the address, which he should always treasure as a memory of St. Peter's parish. It was 20 years since he came there, and it represented the larger part of his life as a priest, so that he could never forget New Westminster, which had appealed to him from the first. It was 12 years ago since he was named coadjutor bishop, not of his own seeking, and he had done much work since that time for the church all through the province. The Oblate Fathers included about 2,000 priests, and that he would never use his name; he would take the name of St. Peter's.

The country is being scoured for Smith, as it is not thought that he committed suicide; it being known that he took a pair of blankets with him, and that he told the boy who gave him the gun that he intended to steal a horse and get across the line.

A sensational statement was made at the inquest by A. Siglet, one of the hotel proprietors, who hinted that he suspected his partner, Albers, of being guilty of the crime. He said that shortly after they started business Albers said to him that if things did not turn out satisfactory, all they had to do was to touch a match to the building. Albers did not stop in the hotel, he did not go to bed the night of the fire, sleeping with his pants and boots on, on the lounge in his house. He explained this by saying he was suffering from diarrhoea.

It transpired at the inquest that there was only one fire escape on the building and no ropes in the bedrooms, as required by law.

The proprietors testified that the building had never been inspected for fire escapes. As the fire brigade here is a volunteer organization, the act places the duty of looking after the enforcement of the fire escape law upon the city police.

The reason that the jury adjourned was that they hoped that Smith would be secured during the week, and might be induced to turn King's evidence.

OUTDOOR SPORT AND ZAM-BUK

Every athlete, every ball player, every swimmer, every canoeist, every man or woman who loves outdoor life and exercise, should keep a box of Zam-Buk handy.

Zam-Buk is a purely herbal preparation which, as soon as applied to cuts, bruises, burns, sprains, blisters, etc., sets up highly beneficial operations.

First, its antiseptic properties render the wound free from all danger from blood-poisoning. Next, its soothing properties relieve and ease the pain. Then its rich herbal balms penetrate the tissue, and set up the wonderful process of healing. Barbed wire scratches, insect stings, skin disease, such as eczema, heat rashes, ringworm, babies' heat sores, chafed places, sore feet—all come within Zam-Buk's power. It also cures and cures piles. All druggists and stores.

## LORNE RETURNS

WITH NEW BOILER

Powerful Tug Has Speed In-  
creased and Fitted With  
Modern Conveniences.

After an absence of three months,  
during which time she has been thor-  
oughly overhauled, the tug Lorne is  
once more in port ready to do service  
for the merchant marine that enter Vic-  
toria or Vancouver harbors.

The main feature of the improve-  
ments in the vessel is the new Scotch  
marine boiler which was installed by  
the Commercial Boiler Works of Se-  
attle, which gives the tug one-third  
more heating surface than the two old  
boilers combined, and which has in-  
creased her speed by nearly two knots.  
The house and galley have also been  
renovated, and everything modern in-  
stalled. Electric light has replaced the  
ancient system formerly used and has  
made possible a powerful searchlight  
which will be found an invaluable aid  
on dark nights. The Lorne made the  
trip from Seattle in six hours, which  
is at least 1½ knots better than she  
has ever done before.

One of the most important features  
of the alterations is the gain in the  
matter of bunker space. The tug can  
now carry forty tons more coal than  
she was able to take on board, nearly  
150 tons being the amount which she  
can carry at one time now. This en-  
ables her to remain out nearly three  
days longer than formerly without go-  
ing to a coaling port.

It was a rather curious coincidence  
that the new boiler should have been  
put in the Lorne by the same men who  
helped to install the first two boilers  
at the time she was built. Fox & Jen-  
kins, the proprietors of the Commer-  
cial Boiler Works, are Victoria men,  
who worked on the first boilers when  
the Lorne was built by Robert Duns-  
muir & Sons near the outer dock.

## POSTAL SAVINGS BANKS.

Beverly, Mass., Aug. 26.—In talks  
with callers, President Taft has in-  
dicated that in his message to congress  
next December he will strongly urge  
the early establishment of postal sav-  
ings banks. President Taft believes  
that several hundred millions of dol-  
lars would be placed at the govern-  
ment's disposal through postal savings  
banks. It is suggested that this  
money might well be employed in tak-  
ing up the \$600,000,000 of \$100,000,000  
outstanding government two per cent.  
bonds which have given much concern  
to the treasury department officials.

Steamer Vado will take a large con-  
signments of lumber to Cousin's Inlet  
for the use of the pulp works. The St.  
Denis also took a large consignment  
of lumber and shingles to the same  
place last week.
